### D&B RATING GLOSSARY

#### The D&B Rating - The D&B rating consists of two parts, the Financial Strength Indicator and the Risk Indicator.

For example: in the case of a **2A 4** rating, **2A** means the financial strength of the business and the **4** is the risk indicator. The **Risk Indicator** is used in conjunction with the Financial Strength Indicator. The Risk Indicator reflects D&B's opinion of the risk associated with trading with a specific business, notably the likelihood of business continuance or failure over the next 12 months. Created from expert rules system, the Risk Indicator is refreshed whenever data is loaded onto our database. Please see the table below for the Risk Indicators and their corresponding values.
